Subject: RE: Winstone Aggregates Three Kings Quarry: Failed Biannual Sample Result Dec 2014

Hi Nigel,

Thank you for your quick review and response.

No items have been identified by the review to be implemented. However, we have discussed utilising the our handheld GPS to record the coordinates of the composite samples so we'll look to implement that during the next sampling round.

In regards, to a site visit please let me know your availability and we'll book a date and time in.

Regards,
Elyse

Hi Elyse,

Thanks for providing the report on the BaP notification.

I am satisfied that the procedures as set out in Section 4.6 of the 3 Kings Fill Management Plan have been met and that the assessment of effect on the environment being less than minor in the report is satisfactory.

Is there anything you are changing or planning to instigate as result of this failed test?

Also, I should come out to the site this quarter as I don't believe I visited the site in 2015?

Kind Regards

Nigel
