

Quarry and Fill Operations Report

26th February 2018

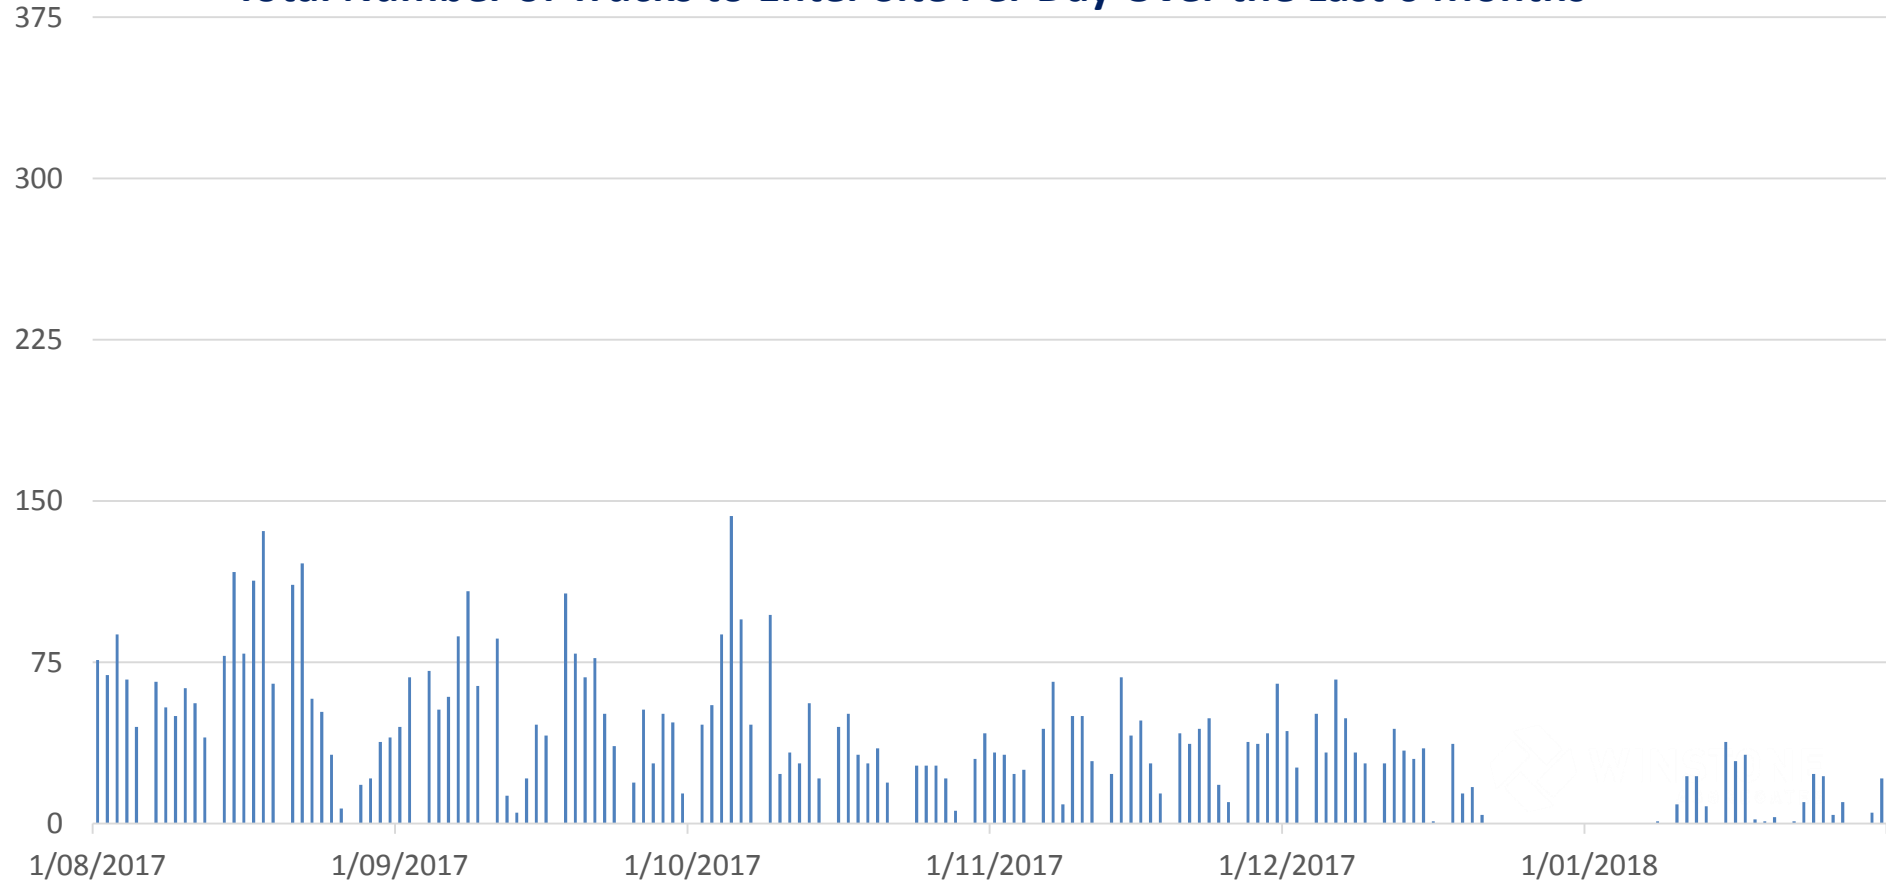

The 2017/2018 earthworks season has commenced as of November 2017 and is expected to continue until the end of April 2018 (weather permitting)

Note: The future plan is indicative only and subject to change

Daily Truck Movements

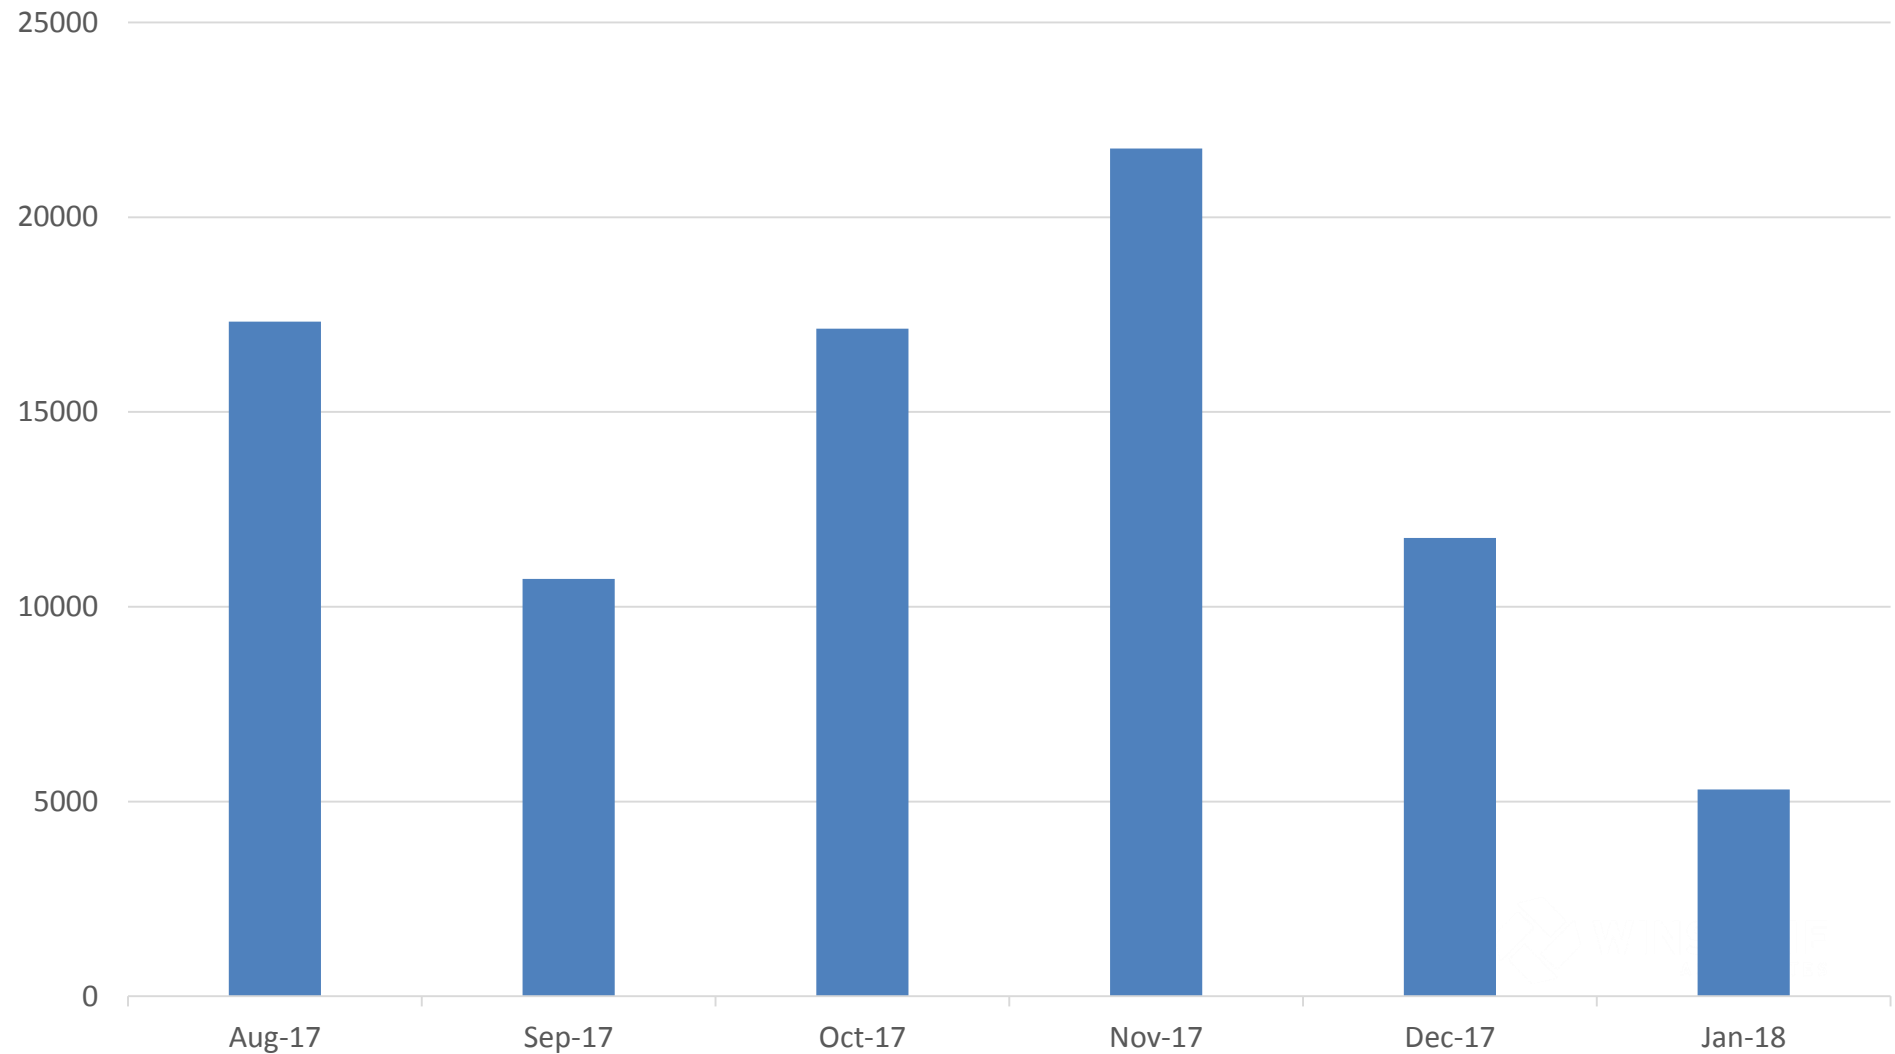

- The total number of trucks to enter site has been below the consented limit of 375
- 41 was the average number of trucks to enter site per day over the last 6 months

Total Number of Trucks to Enter Site Per Day Over the Last 6 Months

Volume of Fill

Volume of Fill Tipped Per Month (Tonnes)

Weed Management & Pest Control

Pest Control:

- Possum traps and rat bait stations continue to be checked and baited
- 4 possums were caught since last meeting in Zone 1 and 2.

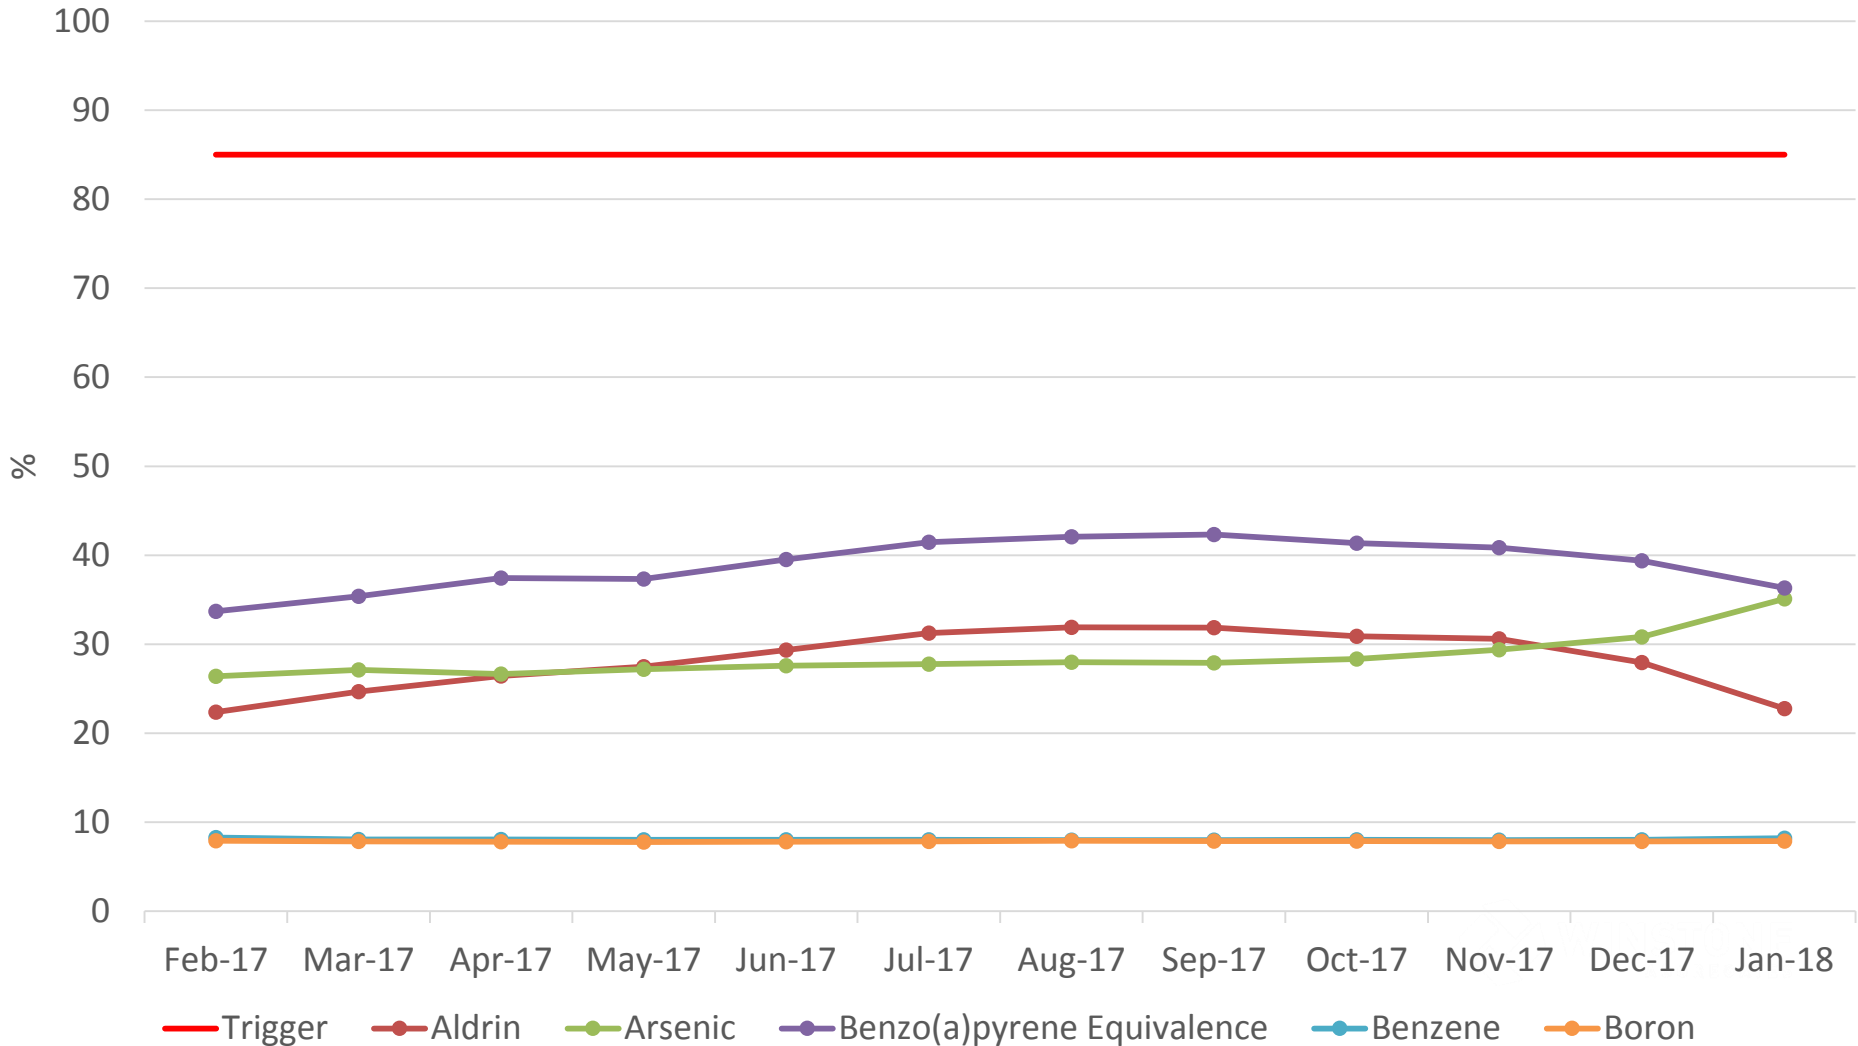

Weed Management:

- Weed control within the site is undertaken fortnightly by an external company on an as needed basis by certified staff using nap sacks and best product for application.
- Woolly nightshade present along sections of the western boundary were sprayed by application through the fence and results will be assessed later this month. If further controls are required these will be actioned accordingly.
